INTRODUCTION

Globalization created a borderless world, while digitalization heralded a connected world –people are connecting globally through social media to share their ideas, perceptions, sentiment, and ubiquitous intelligence information.

Nowadays, the deluge of conversations trending on social media are no longer regarded as unstructured packets of information but are considered a gold mine of insights capable of accelerating your business growth objectives. Harnessing that critical information and compiling it into an effective marketing strategy is where **Dynamic Profiling™** comes in.

With our robust and comprehensive suite of social media management services, organizations enrich an understanding of :

- the customers needs and wants
- online reputation management
- the brand perception
- the industry landscape
- the business strategies that are driving customers to act

Dynamic Profiling™ provides a complete suite of consulting, listening and reporting services and act as a client's social partner fostering strategic growth of its digital business.

VALUE PROPOSITION – REPORT COVERAGE

REPORT OVERVIEW – SOCIAL MEDIA SERVICES

Social Media Listening help you to listen and monitor your data, to let you optimize the performance of your business and acquire and retain customers. Our compelling social strategies dynamically deliver informed, salient insights to key decision makers in every sphere of operations – from product development, to marketing campaigns, to customer experiences.

- Identify social trends and enable organization to understand the unbiased public outlook on your business, solutions, and services, as well as competitors and their services.
- Capture – and even predict – customer sentiment, opinion, behavior patterns, and satisfaction levels, so you can be fully aware of your customer dynamics.
- Empower your business development by discovering potential customers and generating new leads.
- Analyze the effectiveness and outcome of campaigns so you can refine your strategies appropriately.
- Identify key influencers within social network channels, and optimize social media outreach efforts, so you can reach the best audience most effectively.

SOCIAL LISTENING - APPLICATION AREAS

Our services demonstrates application-centric capabilities that empower diverse stakeholders

TALENT MANAGEMENT

Screening & hiring the talent pool through social community engagement.

SALES & MARKETING

- Fostering business relationships, building trust with potential business networks, and enabling pitch roadmap for sales & marketing executives.
- Identifying new avenues of growth opportunities & market prospects, thereby helping clients to optimize the marketing expenditure.
- Enabling successful marketing events & campaigns by capturing the precise market dynamics.

BRANDING

Enabling an agile brand reputation management by understanding the customers' needs, perception, and tonality.

RESEARCH & DEVELOPMENT

Facilitating cycles of product development and launch by effectively capturing the market needs & demands.

SUPPLY CHAIN MANAGEMENT

Ensuring streamlined supply chain by listening to customer responses.

CUSTOMER SERVICE

- Proactively addressing customer service issues through appropriate channel listening & engagement.
- Effectively handling PR tracking, requests & crisis management.

REPORT COVERAGE CHART

	Social Listening	Social Media Analysis & Reporting	Social Intelligence

The Revolutionary Business Breakthrough You've Been Looking For

Dynamic Profiling™ opens a new world to creative business leaders who recognize the power and potential of this bespoke service offering. Stake your claim in this new world today so that as your market evolves, your business can offer timely, relevant, and insightful responses that bring your business growth and recognition as a market leader. Springbord offer comprehensive and scalable social media management service with

- Seamlessly integrated social media listening and intelligence service offerings in real-time. Continuous monitoring allows us to provide dynamic updates.
- Unparalleled access to research databases, social media sites, online communities, blogs, and other media-sharing websites, along with a massive dedicated internal database housing a wealth of information.
- Broad coverage of traditional media thought leaders as well as social media Influencers, yielding widespread brand outreach and advocacy programs.
- Faster response to inquiries, complaints, and other crisis management services due to our comprehensive, readily deployable framework for initiating real-time monitoring.

We've invested years building and refining our robust web-search processes, tools, and reporting designs. We make it available to businesses like yours so you can reach your goals efficiently. We've observed how our creative application of technology can boost the success of small and large companies, and we want you to experience our advantage.

What Makes us Unique – The power to blend market and social intelligence

We unite the key resources of people, processes, and technology so we can deliver rich, relevant data, allowing you to make the most informed decisions possible. Our enhanced capabilities allow us to integrate market intelligence data with social media information. As a result, our customers have prolific insights and holistic perspectives about the people who are most closely tied to their business objectives.
